Package	Plyo bag,carton and wooden case

Product features

- 1.Smooth Handles-- Each kettle bell is hand-inspected before leaving the factory, and again prior to shipment to ensure no rough handles.
- 2.Flat Bottoms-- Our kettle bells have a machined flat bottom to make it easy to do renegade rows, kettle bell push ups, and other exercises requiring a kettle bell with a flat bottom.
- 3.POWDER COATING - The most durable form of kettle bell coating available in the world. Powder coating protects the kettlebell from easily chipping and scratching. When a kettle bell loses its paint you are not able to maintain grip during workouts and chips can lead to cut up hands and injuries
- 4.HANDLES - These handles on the powder coat kettle bells are designed for high intensity workouts. The powder coating makes it easier to maintain a strong grip on the kettle bell when your hands are sweating. The coating is also ideal for holding chalk if you prefer to chalk up the handle for using.
