

Product Description

The XYSFitness adjustable [squat box](#) is for the widest size , so anyone from can use this box. On top of that it can handle the strength exhibited by the strongest man in the world. This box is battle tested and it has stood up to many of your [squat workouts](#) at super training.

The XYSFitness [adjustable height plyo box](#) allows you to sit back further getting deep into the hams and glutes. It develops the proper squatting muscles while reinforcing correct technique. The wider stance and straighter foot position used for the box squat activates the

hips and helps eliminate the excessive stretch reflex that many close stance Olympic style lifters get. This makes the box squat more challenging but will also make your regular squat stronger and more efficient.

This XYSFitness adjustable squat box is a sturdy steel framed platform which is used for execution of plyometric jumps to build explosive leg strength during sports performance training. [Jump training](#) is an explosive training technique that promotes muscular growth and endurance and also increases cardiovascular capacity. Athletes train specifically with plyometric boxes to not just build power and strength in the lower body, but to also improve neuromuscular speed and motor skills coordination. Plyometric jumps require an advanced combination of strength, endurance, dexterity, and mental focus, making them an important part of any cross-training routine.

Product Specifications

- Assemble size : 71×60×30 cm
- Weight : 22.2 KG
- Material : Wear Resistant Steel
- Iron Plate : 4mm
- Package Size : 73 x 62 x 35 cm
- Logo : Customer Logo
- Application : Agility Training
- Color : Black , Silvery , White

30cm with 7 adjustable locking positions in 5cm height

The screw will fix each adjustable position steadily .

Packaging & Delivery

Packaging Details:

- 1: Each component into a pp bag ;
- 2: Then many bags into a carton .

Delivery Detail:

Within 27 days after payment
