

High Quality Birch Wood Gymnastic Ring For Gymnastic Exercise.

1,Description:

Wood Gymnastic Rings offer athletes a texture, grip, and light feel thoroughly distinct from that of steel or plastic rings. These rings hark back to the classic Chinese wood gym rings of the past, while still integrating easily into any modern home gym or strength training facility.

Each set of wooden rings comes with the heavy-duty black nylon ring straps and buckle system, enabling quick, easy adjustments. Hang the ring straps from a crossmember in your gym or venture outdoors to use a swingset or stable tree branch as a foundation. Adaptability, portability, and reliability all help set Rogue Gymnastic Wood Rings apart.

Used in the last three CF Games, Rogue Wood Rings are built to handle Olympic caliber ring dips, muscle-ups, back levers, front levers, pull-ups, scarecrows, ring push ups, ring rows, skin the cats, ice cream makers, and anything else you can throw at them.
