

Safety Strap Systems for STRENGTH EQUIPMENT

Safety Strap Systems are available in three depths (43", 30", 24"), so there's a system that matches the dimensions of any unit in the Monster Lite line.

Specifications:

Compatible ONLY with Monster Lite rigs/racks

3" Wide Reinforced Black Nylon Straps, rated for 10,000 lbs

5/16" thick Steel Brackets and 5/8" diameter Pin

NEW Hanger design with quicker, J-Cup style adjustments

Ends can be mounted at different heights

Won't scuff/damage knurling on drop

Depth Options: 43" (109cm), 30" (76cm), 24" (61cm)

It offers a simple and reliable solution for protecting both your body and your equipment during even the heaviest lifts. As an advantage over some pin/pipe and flip-down safety systems, you can mount the ends of each strap hanger at different heights. This gives athletes the option of positioning the strap so that the barbell will roll safely away from them on a drop.
