

Product Description

The hexagonal barbell bar is a common piece of fitness equipment consisting of a long metal bar with a hexagonal handle at each end of the bar for gripping. It can help people to maximize their strength during training, enhance muscle strength and promote physical fitness. Usually, it can be used to do squats, bench presses, rowing and other movements, but also for chest, shoulder, back and leg training.

# Hexagonal ring rod

- The hexagonal circular bar, also known as the stiff lift or shoulder shrub, can place the body in the middle of the circular barbell bar, reducing the pressure on the back, and is good for shoulder shrugging.
- Hexagonal circular rods are also suitable for home use. They are very strong and durable. According to human body weight mechanics design, compact structure, easy to carry
